PROJECTS

Density based traffic signal

The project is aimed at designing a density based dynamic traffic signal system where the timing of signal will change automatically on sensing the traffic density at any junction.

Client:nexus technology

Result:completed project up to two months ahead of schedule .

SEMINAR

Space mouse technology

Every day of your computing life, you reach out for the mouse whenever you want to move the cursor or activate something. The mouse senses your motion and your clicks and sends them to the computer so it can respond appropriately.

STRENGTH

Hardwork

Concentrate one thing at a time

Great team player
